

# “Math Art-Star Books”

Bookmaking Design with Math and Art

Student Name: \_\_\_\_\_

Class: \_\_\_\_\_

Grade: \_\_\_\_\_

## OBJECTIVE (GOAL):

- I will:
  - Show connections between math and art in an artist’s book
  - Practice collage and design skills when creating my covers and pages
  - Reflect on my learning by writing about my finished artist’s book

## PLANNING:

1. How are math and art connected?

---

---

---

---

2. What is *minimalism*?

---

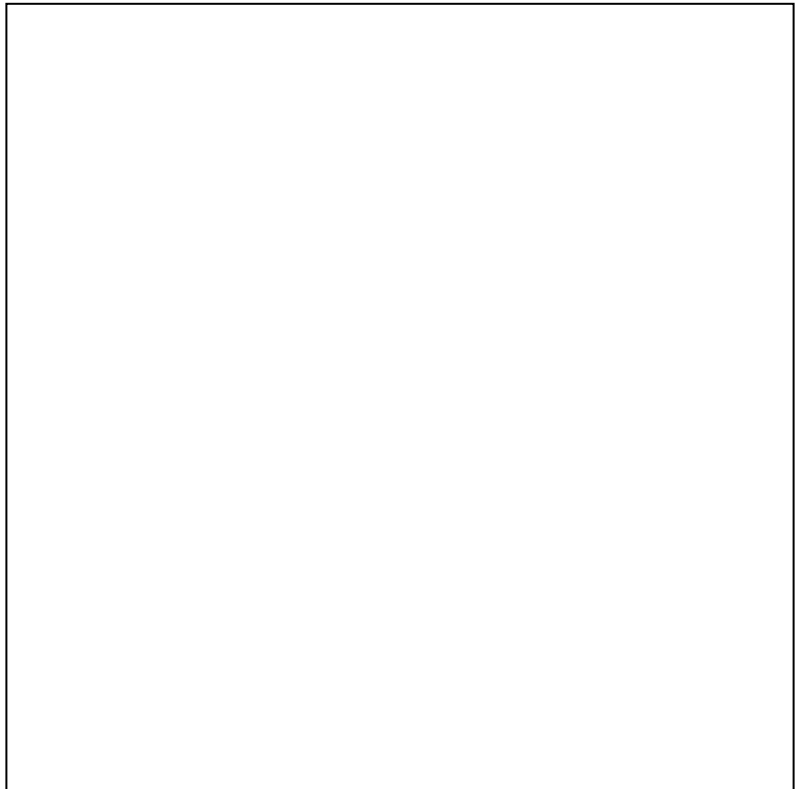

---

---

## **“Math” Cover**

**What does “math”  
look like?**

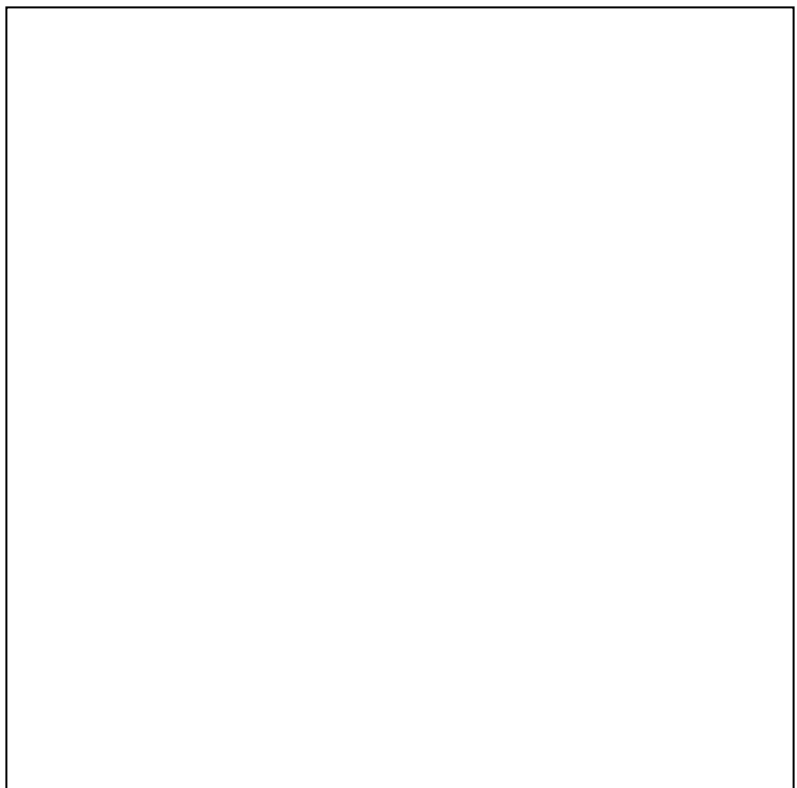

**Sketch a design that  
includes images of  
“math”**

## **“Art” Cover**

**What does “art”  
look like?**

**Sketch a design that  
includes images of  
“art”**

## **REFLECTION:**

Complete this section *after you have finished* your star book.

1. How did you show the connection, or relationship, between math and art in your book?

---

---

---

---

2. What would you change about your finished book, if anything?

---

---

---

---

3. What was your favorite part about creating this book? What was your least favorite part?

---

---

---

---

## **TEACHER EVALUATION:**
